DETAILED ACTION

Allowable Subject Matter

1. Claims 16 and 18-33 are allowed.
2. The following is an examiner's statement of reasons for allowance: The instant application was previously allowed by a Notice of Allowance mailed on October 30, 2007. Subsequent to the previous allowance Applicant filed a Request for Reconsideration and several Information Disclosure Statements. The claims have not been amended since they have been allowed.

In contrast to the claimed sensor strip the sensor strips in the English language translation of Mure et al. JP10[1998]-2874 ("Mure") (cited on the Information Disclosure Statement of July 18, 2008) do not have a spacer layer defining "a sample chamber extending from the first aperture to a second aperture, ...; and (f) the second aperture forming a rectangular vent hole through the second substrate." Because the sample chamber in the Figure 3 embodiment of Mure does not form a capillary channel and is open at the front end of the sensor strip and partially at the front sides there is no need for a second aperture forming a vent hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
